A second interlock showing of this film was held at [REDACTED] 25X1A5a
25X1A5a [REDACTED] on 11 October for Col. Edwards and six other persons from
his office whom he invited to attend. The showing was held at
25X1A5a [REDACTED] because the first open date in T-30 was October 24 and
it did not seem practical to delay production on the film by at
least two weeks.

Comments by Col. Edwards and his guests were strikingly similar
to those made by the group at the 5 October showing. During the
discussion periods, Col. Edward's group was briefed on the
criticisms previously made and agreed generally to the
suggested changes especially to an effort being made to tighten up
the first two sequences in order to make them move a little faster.

Col. Edwards expressed extreme satisfaction with the film, as
did the others, and thought it would serve his Office well in
putting over the desired security training message.

[REDACTED] was also present and expressed the 25X1A9a
opinion that this is one of the best training films he has ever seen
(and he has been exposed to many).

[REDACTED] are reviewing all notes made at the 25X1A9a
showings and will inform the Office of Security by a memo for
the record of the exact changes which will be made in final
editing based on the comments made.
